

New York Consortium for Interdisciplinary Training in Kidney, Urological, and Hematological Research

Summer Undergraduate Research Internship Program 2024

The **NYC Train KUHR** invites the **undergraduate students at the City University of New York (CUNY) science programs** to apply for a sponsored summer research internship in the laboratories of the NYC Train KUHR preceptors at the Albert Einstein College of Medicine, Icahn School of Medicine at Mount Sinai, and Renaissance School of Medicine at Stony Brook University.

The **Summer Undergraduate Research Internship Program of the NYC Train KUHR** provides the opportunity for students to learn new techniques, methods and approaches that are commonly used in basic, clinical, and translational kidney, urological and hematological (KUH) research. The program welcomes students who are:

- New to research and have an interest in learning about KUH research and/or in applying a new method, technique, or experimental approach in the KUH field.
- Experienced with prior research experience with an interest in learning about KUH research.

The overall goal of this program is to increase the awareness of undergraduate students to KUH research and the opportunity for future MD, PhD or MD/PhD training in basic, clinical, and translational research provided by the NYC Train KUHR TL1 training program or other training programs.

A list of the **NYC Train KUHR laboratories** that will be accepting students in the Summer of 2024, along with their research interest, can be found in the attached pdf document.

Internship duration: Students are expected to participate for 8 to 9 weeks in the program, with an expected start date in the first week of June 2024.

Funding: Selected candidates will receive a **stipend of up to \$3,000** that will be calculated based on time spent in the program. Funds are to be used to pay for the students' time to conduct research in one of the KUH areas during the Summer.

Application: Those interested in applying should contact the "NYC Train KUHR Summer Undergraduate Research Internship Program" coordinator, Sylvia Suadicani, PhD (sylvia.suadicani@einsteinmed.edu) and email the following documents:

- Candidate's curriculum vitae.
- Personal statement describing how participation in the program will further his/her research training and career goals.

Timeline: Applications are **due on April 30th, 2024, 5 pm ET**.

If you have any programmatic questions, you may contact the "NYC Train KUHR Summer Undergraduate Research Internship Program" coordinator, Sylvia Suadicani, PhD (sylvia.suadicani@einsteinmed.edu).
