

**New York Consortium for  
Interdisciplinary Training in  
Kidney, Urological & Hematological  
Research**

## **Summer Undergraduate Research Internship Program 2025**

The NYC Train KUHR program invites undergraduate students in science programs to apply for a sponsored summer research internship.

### **Eligibility:**

- **Primary:** Students enrolled at City University of New York (CUNY) and other institutions within the greater New York City area.
- **Secondary:** Students from outside the NYC area are eligible to apply, but must be able to commute to one of the host laboratories as the program does not provide housing.

### **Host Laboratories:**

- Albert Einstein College of Medicine
- Icahn School of Medicine at Mount Sinai
- Columbia University Irving Medical Center
- Renaissance School of Medicine at Stony Brook University

The **Summer Undergraduate Research Internship Program (SURIP) of the NYC Train KUHR** provides the opportunity for students to learn new techniques, methods and approaches that are commonly used in basic, clinical, and translational kidney, urological and hematological (KUH) research. The program welcomes students who are:

- New to research and have an interest in learning about KUH research and/or in applying a new method, technique, or experimental approach in the KUH field.
- Experienced with prior research experience with an interest in learning about KUH research.

The overall goal of this program is to increase the awareness of undergraduate students to KUH research and opportunity for future MD, PhD or MD/PhD training in basic, clinical, and translational research in the NYC Train KUHR TL1 training program or other training programs.

A list of the **NYC Train KUHR laboratories** that will be accepting students in the Summer of 2025, along with their research interest, can be found in the attached pdf document.

**Internship duration:** Students are expected to participate in the program for 8 to 9 weeks, with an expected start date in the first week of June 2025.

**Funding:** Selected candidates will receive a **stipend of up to \$3,000** that will be calculated based on time spent in the program. Funds are to be used to pay for the students' time to conduct research in one of the KUH areas during the Summer.

**Application:** Those interested in applying should contact the director of the NYC Train KUHR – SURIP, Sylvia Suadicani, PhD ([sylvia.suadicani@einsteinmed.edu](mailto:sylvia.suadicani@einsteinmed.edu)) and email the following documents:

- Candidate's curriculum vitae.
- Personal statement describing how participation in the program will further his/her research training and career goals.

**Timeline:** Applications are **due on March 31<sup>st</sup>, 2025, 5 pm ET**.

If you have any programmatic questions, you may contact the director of the NYC Train KUHR - SURIP, Sylvia Suadicani, PhD ([sylvia.suadicani@einsteinmed.edu](mailto:sylvia.suadicani@einsteinmed.edu)).
